1048.01 SEWER SERVICE CHARGE; INSTALLATION OF METERS; SERVICE BY CONTRACT.

(a) Maintenance Fee. Bills for sewer service include a monthly maintenance fee, which is necessary to maintain and operate the sewer system. The maintenance fee shall be assessed, billed, and be payable in accordance with the rates provided for in a resolution adopted by City Council, as the same may be amended from time to time. Every sewer user whose property or structure is physically connected to the sewer system shall pay a monthly maintenance fee for the privilege of being connected to the sewer system. Such maintenance fee shall be billed and payable without regard to whether any water was actually consumed by the sewer user during the applicable billing period. Maintenance fees shall be assessed, billed and be payable regardless of any discontinuation of sewer service that is requested by a sewer user or imposed by the Municipality with respect to the failure of a sewer service customer who is connected to the sewer system to pay fees and charges. In any multi-unit dwelling that is serviced by one meter, the monthly maintenance fee for sewer shall be billed per dwelling in said unit. "Multi-unit dwelling" means a residential unit, whether a private home, apartment house, motel or other type of residence, in which there is more than one individual living unit.

(b) Consumption Rate. In addition to the applicable maintenance fee, all sewer users shall be charged for sewage that is discharged into the Municipal system based on the meter measurement of water supplied to them by the Municipality. Charges with respect to such sewer consumption shall be calculated, billed, and be payable in accordance with the rates provided for in a resolution adopted by City Council, as the same may be amended from time to time.

(c) Customers of the sanitary sewer system who are not also customers of the Municipal water system shall be required to install, at their own expense, a water meter to meter their own water supply source, and shall be billed at the rates established in (a) and (b) above; or may choose instead to pay four times the minimum sewer maintenance fee established in (a) above.

(d) Service to industrial establishments, schools, or other entities exempt from property tax will be by contract if the Municipality deems this to be in its best interest.

(e) Bills for sewer service are due and payable at the business office of the Municipality, or to any designated agent, on their date of issue. Bills for the rates and charges as herein established by the City of Litchfield shall be sent monthly. All bills shall be due and payable upon receipt, but in no case later than the twentieth day of the month received, and shall be paid at the office of the Treasurer of the City of Litchfield. If the bill or any portion thereof shall remain unpaid after sixty days following the due date, the water, sewer, and garbage services for the lot, parcel of land, or premises affected shall be cut off and shall not be turned on again except on payment in full of all charges owed to the City for water, sewer, and garbage collection services in addition to a reconnection fee in the amount established from time to time by resolution of the City Council.

Meters shall be read monthly by the Municipality.
